PROCESSING ORDER. All credit transactions are processed first. Debits, or withdrawals, from your account will be processed in the order they are received. The processing order of these items is important because if there is not enough money in the account to pay for the items in the order they are processed in accordance with the processing order, there may be an overdraft on your account which may result in overdraft or non-sufficient funds fees or an increase in the amount of these fees.

BALANCE COMPUTATION METHOD. We use the daily balance method to calculate interest on your account. This method applies a daily periodic rate to the principal in the account each day.

The daily balance that we use when calculating interest is the collected balance. That means we only include those funds for which we have actually received payment when we determine the daily balance on which interest is paid.

ACCRUAL ON NONCASH DEPOSITS. Interest begins to accrue no later than the business day we receive credit for the deposit of noncash items (for example, checks).

TRANSACTION LIMITATIONS. No transaction limitations apply to this account.
